

## Master Jesus:

Blessings and Divine Love to my fellow Brothers and Sisters,

Welcome to the holy land - a land made holy by the anchoring of divine light from the ancient past - a land that is sacred and is known by all - a land which is coveted by all for this land has the great potential to bring healing to humanity and unite humanity, for this land carries specific light frequencies which are fully active now to change the tide - to shift and transform which has been hidden from the time past. This land and its people carry a very specific energy - that of shifting the frequencies of fear and hatred to grand peace and joy. They carry these frequencies in their akash (both the people and the land) and that is why they have been targeted through out history to take this embedded frequency with in them and capture it for themselves.

I welcome you all to this land. After the shifting of frequency in December of 2012, the light with in most of the star seeds and light workers have dramatically increased and these increased frequency is what is required to change the deeply embedded old thought and belief patterns anchored deep into the ground.

What happens in Israel will touch each and every corner of the earth - in shifting the frequencies and also for the deep cleansing and purification of the earth, for when the earth is cleansed, then the people living on the earth will also be cleansed and purified. What better place to start this grand shift other than this sacred land.

All of you who will be undertaking this sacred pilgrimage have chosen to do this at the I Am Presence level.

There was a very specific reason for my being born in that land, for it was to set up the template and the codes for this change which was foreseen and was a distant possibility then. Now it is here and these templates and codes needs to be activated and in some cases to be reactivated. You are all called for this grand task.

Some of these codes are in the places of great spiritual energy like the tower of King David, on the Golgatha Hills, Masada overlooking the Dead Sea, the Church of All Nations and other sacred places.

On your journey, you will be guided to activate and anchor specific frequency vibrations and energy.

There will also be initiations and activations individually and collectively for all the pilgrims on this trip.

You will all be guided to anchor more light into the etheric cities of light which is in many places in Israel and also to create more cities of light in new areas. The great being who ascended - Master Elijah will bring forth specific frequencies of light and anchor into you to support, release, heal and re-create your new light body carrying the higher frequencies of the Master DNA of the Sisters of the Seven Stars. Pleaidean light masters will work with you in remembering your ancient star heritage and connection with the star masters of Pleaides whose DNA you carry. The Goddess beings will work and anchor the light of divine and sacred feminine through the activation with Black Madonna.

I, AA Metatron and Archangel Zadkiel will be your guides through out this pilgrimage along with support from Mary Magdelene and Mother Mary. The great Magi Balthazar will be there to assist you also.

Welcome to this holy land at this holy juncture.

*“The journey to the Holy Land must be undertaken with love and humility in one's heart, for this land can offer you much. It is the birth place of many master teachings, for this is a sacred portal and if one is prepared with a pure heart, one can have great moments of transcendence for all the places I had walked. I had anchored my energy there. These energies are waiting for you. The ancient ones who lived here, knew about the significance of this land and they travelled far and wide to come here, for it is written that **when one walks on the land of Jerusalem, all the blessings of the Creator can be with them.** I invite you to come to this holy place through the holiness of your heart.  
I await you.  
Master Yeshua”*
